Art Unit: 1624

Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-12 and 19-24 (in part), drawn to compounds, pharmaceutical compositions and methods of use of compounds of claims 1-12, classified in class 540, subclasses 495 and 520; class 514, subclasses 212.06 and 220.
- II. Claims 13-24 (in part), drawn to compounds, pharmaceutical compositions and methods of use of compounds embraced by claims 13-18, classified in class 546, subclass 81+; class 514, subclass 292.

The inventions are distinct, each from the other because of the following reasons:

Groups I and II are drawn to structurally dissimilar compounds. They are made and used independently. They are independent and patentably distinct.

If, say compounds of Group I, were anticipated, applicants would not acquiesce in the rejection of Group II thereover or vice-versa. They are patentably distinct.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and because the search required for Group I is not required for Groups II, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. B. J. Sadoff on March 14, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made. Mr. Sadoff said that he needs a written requirement.

Art Unit: 1624

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bruck Kifle whose telephone number is (703) 305-4484.

The fax phone number for this Group is (703) 308-4556 or (703) 305-3592. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-1235.
